## IN THE CLAIMS

Please amend the following claims:

29. A method for forming a container capacitor, comprising the steps of:

providing a cup-shaped bottom electrode;

providing an insulating layer around and in contact with an exterior surface of said cupshaped bottom electrode;

masking a first partial circumferential portion of said insulating layer;

etching a second portion of said insulating layer from a second partial circumferential part of said exterior surface to expose the part of said exterior surface;

depositing a dielectric layer on said part of said exterior surface; and depositing a conductive layer on said dielectric layer.

A method for forming a container capacitor comprising:

fabricating a cup-shaped-fottom electrode;
